

VOLUNTEER AT THE SHELTER

Cat Guardians Needs Your Help!

Volunteers make our success possible by helping in and around our shelter, visiting pet stores, fund-raising and various other skills. If you love cats, you will be volunteering at the right place.

What are the benefits of volunteering?

- Spending time with cats and kittens who love attention
- Career experience
- Meeting friendly new people
- Volunteer recognition parties
- Free membership and t-shirt after only 24 hours of service
- Teamwork

If you are 18 years or older and want to make a difference, stop by the shelter during our open hours to get and fill out an interest form. Your orientation training will be scheduled. You can help out and contribute to a great cause.

**Thank you for supporting
the shelter!
The cats thank you, too!**

Denise Decker started volunteering at Cat Guardians 13 years ago.

She began as a shelter cleaner who quickly transitioned into a medical care worker, eagerly learning everything that Kathy taught her, from giving medication, injections, and even subcutaneous fluids! This made her a logical foster home for special needs cats and she took that job to heart, providing a loving, caring home to some very lucky kitties!

After continually pitching in to help with cleaning, doing vet runs, helping at fundraisers, etc. Denise became a committee board member, helping us to further our cause. Eventually her health issues became such that she was unable to continue as an active volunteer, but that did not stop her from still being one of the nicest, sweetest human beings that you could ever meet! There wasn't a person that ever met Denise that didn't think that she was an absolute angel.

Denise will be dearly missed.

Would you prefer to receive your newsletter via email (PDF) rather than a hard copy? If so, email us at info@catguardians.org. We will then add you to the newsletter email list so you can save the newsletter to your computer and read it when you have time. This also saves the shelter on printing/ mailing costs.
