

ADOPTION HOPEFULS

Chutney

Chutney was returned to us after her owners had to move out of state. She really loves to cuddle and has a funny personality. She enjoys following her humans around, meowing at them occasionally for attention. Chutney would make a fantastic companion to someone looking for a single pet to share their days with.

Romy

Meet Romy, a black beauty in search of her new, perfect family! Romy is a shy girl, who we think will open up once she gets into a nice, comfortable environment. She is very sweet, and really appreciates when we spend some time with her. She loves chin and butt scratches, and likes to snuggle up into you once she gets to know. Romy just needs a lot of love and TLC. Do you think you are her perfect match?

Sunshine

Sunshine is a beautiful six year old black tortie with amber highlights. She likes to play with quiet toys and would do well as an only cat or with another calm kitty. It may take a while before she's completely comfortable in her new home, but with kindness and understanding, you'll see her blossom.

Susan Storm

Just like her superhero name, Susan Storm can render objects invisible like her bowls of cat food! She would love to show you what a great kitty she is. This stunning gal is not happy with so many shelter roommates and we all know that outside of this environment she will be the happy, loving lap cat she once was. Perhaps in a new home with more space and a slow introduction, Susan might fit in with another cat. This 'full of life' kitty is just waiting for the right person to come in who will appreciate her spirited personality.

Benji

Benji has dreams! He loves to run, play and explore. He also likes dogs.

This cute short haired brown tabby enjoys exploring for toys and the best napping spots. Benji loves doing outreach events where he can show his goofy and loving side. He is always ready to keep you company with whatever you are doing. But most of all, he dreams of being loved and letting his love shine in return! If you think you can give this guy what he dreams of, ask to meet Benji!

Benji has a heart murmur and his FIV+ and he's hoping you have a soft spot for little guys who appreciate a nice, warm bed and regular meals!
